

Report on Awareness Programme on Safe Drinking Water

Introduction: As part of the Memorandum of Understanding (MoU) with Fatima Welfare Foundation, Haji Anfar Ali College organized an Awareness Programme on Safe Drinking Water at Urdhagaon M. E. School, Akashiganga on 4th May 2023. The programme aimed to educate local villagers and students about the importance of safe drinking water and its benefits.

Programme Details: The programme was presided over by Dr. Mamun Azam Barbhuiya, Principal of Haji Anfar Ali College. At the beginning of the programme, a tree plantation was done to highlight the importance of environmental sustainability.

Mr. M. Islam, Vice Principal of Haji Anfar Ali College, and Mr. Abdul Khalik, Head Master of Urdhagaon M.E. School, spoke on the occasion, welcoming everyone to the event.

The Resource Person, Mr. Pratim Batsa, Assistant Chemist from the Public Health Engineering Department, Hojai, delivered a valuable speech on safe drinking water and its benefits. He also discussed the harmful effects of drinking water that contains iron, fluoride, and arsenic, which can cause various diseases. He further explained the process of purifying water to make it safe for drinking.

Noted social worker Krishna Dutta was also present at the event, and Director of Fatima Welfare Foundation, Mr. Mohammad Abdul Jalil, delivered a speech on the necessity of organizing such awareness programmes in rural areas.

Organizers and Volunteers: The programme was a joint effort of Haji Anfar Ali College, Fatima Welfare Foundation, and Urdhagaon M.E. School. Office bearers of Haji Anfar Ali College Students and Abdus Subur, Taz Uddin, and Mohi Uddin extended their helping hand in organizing the awareness programme, which made it a successful one.

Conclusion: The Awareness Programme on Safe Drinking Water at Urdhagaon M. E. School, Akashiganga, was a huge success, with a large number of local villagers and students participating in the event. The programme helped to create awareness about the importance of safe drinking water, which is essential for maintaining good health. It is essential to continue organizing such programmes to educate people living in rural areas about safe drinking water practices.
